

## KINETIC BIKE STORES

# To The Summit

85 Miles

Rolling Terrain

Quiet county roads, rolling hills, and the highest point in Florida all on one route. A perfect lunch stop in Florala Alabama makes this a perfect day on a bike.

If the trip is more important than the destination then this might be a perfect bike ride. Great roads, rolling hills, beautiful scenery and a great excuse for a destination all combine to make this one of our favorite routes. While you might choose to spend a some time at the Summit (all 345 feet of it) you will probably be like most and hurry on to Florala State Park across the state line. This is a great place to enjoy a picnic lunch before completing your ride back to DeFuniak. If you are up to adding a few miles onto this route we have some great options—just ask.
